

TitlePoint

The gold standard for title searching and order management

TitlePoint continues to set the standard for automation and efficiency in title order searching and order management. Its thoroughly modern architecture enables high-volume title production with the convenience of a Web browser-based application.

TitlePoint features the following capabilities

Basic search functions

- Tax
- Grantor-Grantee
- Image
- Property
- Party Property
- Starter Record
- Name
- Instrument

Advanced search functions

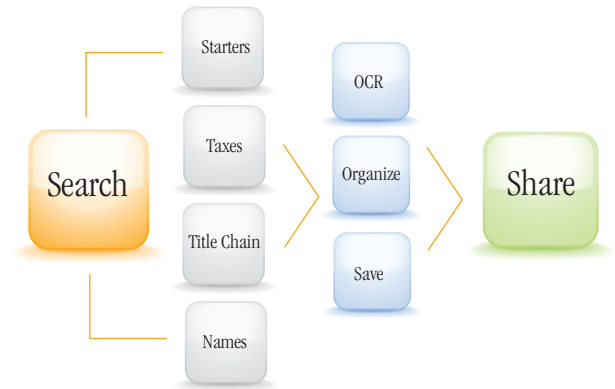

You can run a single search of tax, title and documents using the Combo Search feature. Automatically include assessor's map in a tax search. Automate property, tax and name searching using the Auto-run feature. Set default matching precision for Grantor-Grantee searching. Create merged searches by combining property searches into a single order.

Integrated document image viewing

Open and view document images using iView, the integrated image viewer. Use the OCR feature to convert image areas in a document to text. Annotate, rotate and zoom to enlarge images.

Order maintenance

- Create a comprehensive search order that includes a property chain, tax data, document images, starter record and a map.
- Date-down and close up to 20 orders with a single request.
- Save your order in PDF or TIFF file format, or automatically spool to a network printer.
- Combine ad hoc searches with existing orders.
